

THE EMPRESS EXPRESS

VOLUME XVII. No. 3

EMPRESS, ALTA. THURSDAY, June 14, 1928

Price: \$2.00 Per Year

United Church

Church School, 10.30 a.m.
Man cannot out-grow the Bible till he outgrows his need of God. Bible study for character development is one of the big motives in work with the young.

Public Worship, 11.30 a.m.
Our need of God is indicated by the resourcefulness of humanity's search for him. No greater help comes to us than what we find in Jesus.

Minister's topic—Jesus, the Pioneer of Life.
The Choir will render music as follows:

Vocalization—Sanctus,
Invocation: Mrs. W. McRae,
Vesper hymn,
Everybody welcome,
Rev. N. W. Whitmore,
Minister

Leland

Public worship at three o'clock will be in keeping with U.F.A. Sunday. One and all in sympathy with the farmer's movement are invited to attend. Rev. N. W. Whitmore will give an address on Christian Citizenship.

Now is the Time

TO GET YOUR

Gasoline Stoves

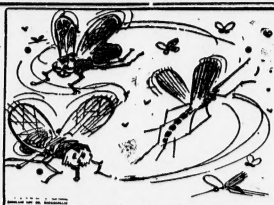

We have all sizes. Safe and Sure.

Sporting Goods Requirements

We will be pleased to secure your needs in the Sporting Goods line and endeavor to secure you best quality and service

EMPRESS DRUG CO.

Third Fortnightly Crop Report

Issued by the Department of Agriculture, Government of Alberta, Edmonton, June 9

Crops throughout the Province have been greatly benefited by rains which have fallen over a large area during the past week, according to telegraphic reports received on Friday by the Department of Agriculture. While the situation had not generally become acute, strikes were urgently needed in a number of districts in the Province, and the recent precipitation has removed the cause for anxiety from this source for some time.

Soil drifting has been checked in the southern part of the Province where some damage of this kind had occurred and late sown grain is germinating much more uniformly with the additional moisture in the soil. Early crops are now covering the ground in many districts and the use of the soil moisture. Alfalfa on irrigated land is reported to be doing exceptionally well. Fall wheat and fall rye are in head in the south, but the yield will be reduced in a number of districts as a result of the dry period.

In the central and northern sections of the Province all crops on summerfallow have made good growth, but those on fall and spring plowing are somewhat patchy in a number of cases. Seeding of coarse grains is practically completed with the exception of green feed. Following the recent rains additional acreage is being seeded to oats and barley on land which would have been followed if dry weather had continued, and there is every indication that the total acreage in crop in the Province will show an increase over that of 1927 in spite of the small amount of fall plowing done.

Cattle in the Peace River district have made rapid growth and are showing good promise. An increase of from 12 to 15

per cent. in crop acreage is reported this year in the north largely owing to the amount of new land cleared and brought under cultivation. Wireworms are doing considerable damage in some sections of the Peace River, but losses are reported to be no heavier on the average than in previous years. Tree growth has suffered heavily from the attacks of caterpillars in some districts east and south of Edmonton. Pastures which were in need of rain are showing new growth and livestock is generally in good condition.

Wedding

The marriage took place on Monday, June 11th, at the United Church Manse, of Earl Vanbuskirk and Lillian Mary Mephram. The young couple will take up their residence on a farm north of Empress.

The Volga Boatman

Filled with the romance and drama of Russia after the fall of the Czar, "The Volga Boatman" strikes out into an hitherto unexplored vein of strongly entertaining photoplay background. The great song, "The Volga Boatman" serves as the inspiration for the story which was written for the screen by Konrad Benvenuti.

The tale is laid in Russia at the time of the outbreak of the strife between the Red army and the White army of the aristocrats. The dramatic incidents in the contacts between Elmer Wagner, an aristocrat, and William Boyd, a sweat stained, toll-laden boatman of the Volga, Theodore Kosloff plays a striking dumb blacksmith, Victor Varenco, an imperious prince and Julia Rye an exotic tatter shaven. Robert Edison is given one of his interesting character roles, as the last of a great line of Russian land owners.

The story starts in the Volga, before the Revolution, and then swings into its stride when the overturning of the Czar makes the whole nation a seething caldron of upheaval. Servant becomes master, and master—servant. The highlight of the picture is a great hall of the aristocrats interrupted by the shells of the Reds. Later we see the aristocrats in their silks and satins forced into the harness formerly worn by the Volga boatmen.

The story points no moral and takes no sides. It is intended simply as a love story of a man and a woman played against the most interesting tapestry of recent history.

The picture is a great hall of the aristocrats interrupted by the shells of the Reds. Later we see the aristocrats in their silks and satins forced into the harness formerly worn by the Volga boatmen.

Social Plains

Sunday, June 17, is U.F.A. Sunday, and a special farmers' service will be held at 5 o'clock in the afternoon. Representatives of the U.F.A. will speak and Rev. N. W. Whitmore will give an address on Christian Citizenship. A picnic lunch will be served at the close. All interested will be made welcome.

R. M. Mantario No. 262

Minutes of meeting, June 2, 1928, at Mayfield Community Hall, 10 a.m. Present, Reeve Walker and a full council.

Minutes of meeting read and confirmed on motion of Cn. Hawn.

Treasurer's statement accepted and filed on motion of Cn. Montgomery.

The finance committee examined the accounts on file.

Walker—That the Secretary be Returning Officer, and nomination meeting held at Byre post office, Friday, June 15, from 1 to 2 o'clock p.m. to fill vacancy in Div. V. due to resignation of Cn. Richards.

Hawn—That second quarterly payment be made to schools as required.

Walker—That estimates for Cn. D. S. be passed.

Montgomery—That Elmer Wagner having submitted leave for inspection, and the same having been found in order, his hospital account be passed for payment.

Kinch—That accounts passed by the finance committee be paid as under:

Mowat, McTavish & Co., an audit, 97.55
Canada Ingot Iron Culverts, Div. I, 75.75; Div. II, 72.75; Road Maintainer, Div. III, 125.00; Culverts, Div. IV, 149.85; Culverts, Div. III, 104.55. Total, 524.00.

John Adams, balliff's fees, 10.50; Richardson Road Mach. Co., repairs, freights, etc., 99.90; Ditto, blade for maintainer, 10.00; Alaska hospital, 54.00; Empress hospital, 6.00; G. Grainger, roads Div. VI, maintenance, 6.00; J. D. Adams Co., Div. IV, 155.90.

M. Walker, roads Div. VI, main, 27.00; Alva Ellis, ditto, 20.00; Frank Hughes, ditto, 20.00; W. S. Ellis, ditto, 21.00. Total, 101.00.

Imperial Lbr. Yards, culverts, Div. III, 32.35; West. Mun. News, stationery, 2.95; See. Trans. postage, etc., 11.37; Underwood & McClellan, survey ing, 213.50; I. Technobold, roads, Div. IV, main, 37.00; W. Con. nelli, culverts, Div. I, 6.75. Total, 1419.97.

"SANDY"
The Jeweler and Clothier

Kinch—That an additional \$4500 be appropriated for roads making a total for the season of 9000.00.

Hawn—That those divisions which had unexpended balances last year be appropriated an amount equal to the unexpended amount of 1927, and that the balance of the \$1500 be apportioned equally among the divisions.

Amendment moved by Walker—That the motion be amended by reducing the amounts for Div. II, 100.00; Div. VI, by 200.00; Div. V, by 100.00 and Div. I, by 100.00, and making an additional amount of 300.00 for Div. IV, and 100.00 to Div. III, on account of the large wastage to be repaired in these two divisions, and 100.00 to general roads.

The amendment carried unanimously.

Divisional appropriations for the year to be:

Div. I, 1318.50; Div. II, 1000.00; Div. III, 1269.50; Div. IV, 2012.00; Div. V, 885.00; Div. VI, 1611.00; General roads, 270.00. Total, 9000.00.

Walker—That in future all appropriations unexpended in the current year be written off, and not considered in making further appropriations.

Council adjourned at 7.30 p.m. to meet again Saturday, July 7, at Orange Hall, Cutbert at 10 a.m., being Court of Revision.

C. Evans Sargent,
Sec. Treas.

Baseball Notes

The Baseball hall players were visitors to Empress, Wednesday. In a rugged game they trimmed the locals by a score of 4 to 3.

Ballfield's ball team played the local high school team on Saturday. The game was a closely contested one; the locals moving out the westerners by a 5 to 4 score.

Empress are expecting to send a team to the Sceptre sports on Friday.

Pensions Plea More Valid And Convincing Than That Of Judge

"Empress Express."

Empress Judges
"As I happened to be the only member from Alberta on the Special Committee appointed to consider the adequacy of the salaries paid to Judges, I thought you might be interested in a short letter on the problem."

Fourteen Judges and nine representatives of the Bar Association gave evidence before this committee. The list of annual salaries paid at present with the number of Judges is as follows:

Supreme Court of Canada, 1	\$15,000
Chief Justice, 1	15,000
Associate Justices, 4	12,000
Provincial Superior Courts, 18	10,000
Chief Justice, 18	9,000
County Court Judges, 70	5,000

About 129 in all. 5,000
In addition, five of the provinces pay extra. County Court Judge, \$1000 or \$1500 an additional salary for Supreme Court work, but in the other four provinces, they get little or nothing more than the \$5000.

All Judges are allowed travelling expenses, 10 or 12 day in the country and \$10 per day in the city, and a retiring allowance is available after the age of 75 is reached, of about two-thirds of their salaries.

Their claims were briefly these: Some respected them to live up to a certain standard (see last page)

Leave All Your Old Ideas at the Showroom Door

UNLESS you have already examined the New Series Pontiac Six and driven it . . . your ideas of six-cylinder car value are due for radical revision.

Leave those old ideas at the showroom door. Come in and see the car. Then drive it.

Get the feel of the big, smooth six-cylinder engine, with its GMR cylinder-head. Let the car leap forward at a touch of your toe on the accelerator. Bring it to a swift stop with a gentle pressure of the positive four-wheel brakes.

And, all the time, experience the easy-riding comfort of the four Lovejoy Hydraulic Shock-Absorbers and the luxury of perfectly-appointed, beautiful Fisher bodies.

Then—learn Pontiac's amazingly low price—and you have discovered a six-cylinder value that upsets every preconceived idea you may have had. Ask your dealer about the G.M.A.C. Deferred Payment Plan which makes buying easy.

Hon. Vincent Massey Speaks On Peaceful Relations Between Canada And The United States

"The peaceful relations between Canada and the United States are founded on practical principles," said Hon. Vincent Massey, Canada's minister of the United States, in a speech before the American Peace Society, delivered at Cleveland.

In conveying the greetings of Canada, Mr. Massey said that he happened to be the only representative of British America present, and he might be permitted to add to Canada's good wishes those of Newfoundland, the British West Indies and all the countries in America which owe allegiance to the British crown.

Canada and the United States, said Mr. Massey, had gone a long way towards a solution of the problem of peaceful neighborliness.

"We may point with some pride to a tradition on tolerance and common sense in our dealings with each other," he said. "It is true in our enthusiastic moments we refer to our peaceful border in unreserved language, but underneath our rhetoric there is solid fact. No two nations can point to an achievement like that of the international joint commission, which for fifteen years and more has been settling intricate and delicate questions in connection with the waters on our boundary line. It is a matter of great satisfaction that, to quote a recent learned authority, in a long list of cases there has been no discovery of instances where dissatisfaction has arisen over the orders of this body. Its orders have never

been disobeyed, although it possesses no powers of police to enforce its orders. What a triumph in international co-operation there is in this fact, and in all the cases this commission has never divided along national lines, and only once was it divided at all! We may well regard the work of this body as an impressive example as to how two neighboring nations, which are accustomed to trust each other, may deal with common problems."

This principle of arbitration in Canadian-American relations has been embodied in the policy of both countries since the Jay-Greenville treaty of 1794, providing arbitration as a means of settling boundary disputes. Mr. Massey pointed out, the principle then set up had been scrupulously observed ever since.

The Canadian minister expressed great faith in the practicability of the various peace movements now going on throughout the world. In spite of the scepticism, the road to peace was not far off. "More human beings are now bent on preventing wars; more people are thinking in terms of peace, than ever before. Governments are directing their energies to this end as they never have done in the past. Do we hear more of war? The fact is that we are more conscious of the cruelty and futility of war than ever before, but there lies the hope that the consciousness of a disease is the first step towards its diagnosis and cure."

Seeing Sights The World Over

Possibly you have a friend who was a passenger on the round-the-world cruises of the Canadian Pacific Steamship "Empress of Australia." If so, you have already heard the stories of ports visited, and the strange sights witnessed. In clubs, homes, and lecture halls you will hear about where the passengers saw the largest Buddha in Japan, how the Whangpoo River, China, looks in the moonlight with its queer craft silently scurrying with unknown cargoes to and from various ports, while from the cabin comes the wailing of the Chinese tune.

Then there is the spectacle of the battle royal in which the former is always the victor, usually through his habit of securing a good hold with his mouth and crushing the head of the snake. Another interesting thing is to see the Hindu with

his flute charm a deadly poisonous snake, finally playing on the musical nerves of the reptile to such an extent that he gradually aways from side to side in accompaniment to the Oriental music. Photo shows a motor of the desert being carefully shaved by his attentive chauffeur, incidentally the owner looks over the camel's teeth to see if any are in the stage where pulling is necessary. He set gives a silhouette at sunset on the River Nile.

Greatest Aids To Agriculture

Industry In Canada Has Reaped Most Benefit From Non-Farmers Agriculture's greatest aids in Canada during the last 50 or 70 years have come from men who have never farmed. J. H. Evans, deputy minister of agriculture for Manitoba, told the Legislature recently.

"A doctor who had never farmed learned in 1850 that wheat rust had different spores, and if these could be destroyed the fungus would be eliminated," Mr. Evans said. Pathologists had been using that information as a basis for research ever since. Pasteur, the French chemist and scientist, had brought immeasurable benefits through his "pasteurization process," evolved in 1857 to aid wine-makers whose products were spoiling. William Sanders, a druggist, had hybridized many brands of wheat to select the best and produce the grade known as Marquis.

Mr. Evans asserted that it was not very encouraging to the farmers, after years and much money spent to grow better seed and better stock, to have to sell these products for a low price "dictated by the businessmen."

The Canadian Rocky Mountains coast geologically of the upturned edges of the strata underlying the Great Central Plain of North America.

Some men drop all of their money trying to pick up more.

Mineral Springs Of Canada

Spring Water With Curative Powers Occur In Many Parts Of Dominion

The production in mineral waters in Canada in 1927 amounted to 263,220 gallons, valued at \$14,080, and was derived from mineral springs located in Ontario and Quebec. Spring waters containing minerals in solution, or as they are usually termed, mineral waters, occur in many parts of the Dominion. Many of them are utilized commercially, both as potable waters and for bathing purposes. At several of the springs where the waters have curative properties, hotels and sanitariums are operated. Some of the thermal springs are utilized principally for mineral baths.

Shorthorn Cow With A Record U. A. Roan Lady, 101st—1885-47, a registered Shorthorn cow in the herd of the University of Alberta, Edmonton, recently completed a 365 day test during which she produced 15,428 pounds of milk with an average test of 4.2 per cent, making a total of 644 pounds of butterfat. This record places her sixth highest in Canada in point of butterfat production for Shorthorn cows.

No young man can succeed if he is afraid to do a little more than he is paid for.

The notes to which the strings of a violin are tuned are G, D, A, and E.

Canadians Living In U. S. Will Erect Memorial At Ottawa As A Confederation Gift

Perfect Simplicity

A sports dress in smartest, of course, when it's simple. Style No. 837 is extremely popular. It is particularly fetching, made of striped navy blue woolen with the stripes reversed for the front panel. The belt is attractive striped through opening and tied at side. It can easily be made in an hour and only requires 3 yards of 40-inch material for the 36-inch size. Two surfaces of crepe satin, printed and plain silk crepe, and organdy crepe in two-tone effect, are lovely combinations. Pattern is obtainable in sizes 16, 18 years, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42 and 44 inches bust measure. Price 25 cents the pattern.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dress-maker. Price of the book 10 cents the copy.

WILL HAVE CHARGE OF WOMEN'S SPORTS

Adhering strictly to the policy that women's sports should be handled exclusively by women, the Canadian Olympic committee accepted the recommendation of the Women's Athletic Federation and appointed Miss Marie Puckes, chairperson, and Miss Alex. Glibb manager. They will have charge of the women track and field athletes on the trip to Amsterdam. There may be some girl athletes recommended by the Canadian Swimming Association, and if so they will

be in charge of the ladies appointed, both of whom are eminently qualified for the position. Miss Glibb has been an outstanding figure in girls' sports for some years and was manager of the Canadian ladies' team in 1925, which visited England. Miss Puckes has been actively associated with women's sport at the University of Toronto and with the Women's Federation of Canada, of which she has been secretary since its formation.

Want Air Port Chief

First Time Such A Position Has Been Advertised

Probably the first advertisement of their kind are in process of issue by W. Foran, secretary of the civil service commission, as a result of the decision of the Department of National Defence, to hold competitions for the positions of air harbor manager, at the St. Hubert airbase, near Montreal, and inspectors, civil aviation, at Ottawa. The air harbor manager will have charge under the supervision of always of a public licensed air harbor, including the flying field or water surface, hangars, airplanes, workshops, etc., at St. Hubert, will collect all operator fees, supervise aerial traffic and co-operate with customs officials at the port.

Qualifications for the post include a license as commercial pilot and air engineer, and wide knowledge of the different types of aircraft.

FINDS HAPPINESS

Malika Men Schumacher, eight years old, a Polish orphan, who travelled 1500 miles alone to find a new home. On her arrival at the Canadian National Railways station, Winnipeg, she was met by her new parents.

W. N. U. 1724

NEW CONFEDERATION BUILDING

Work on the new Confederation Building at Ottawa, of which the foundation stone was laid by Lord Willington on Confederation day last year, will be completed by the end of the year. The building, which is to house government departments, will be of French chateau architecture, which will harmonize with the Chateau Laurier at the other end of Parliament Hill. The plan resembles a broad arrow, with a main wing of 250 feet on Wellington street and a wing of 200 feet along Bank street, a third wing bisecting the angle. The Dominion has hitherto been paying out \$500,000 annually in rents for government departments, many of which are now accommodated in old houses or stove buildings.

A sketch of the May memorial to be erected in the Parliament Buildings at Ottawa, as a Confederation gift from Canadians resident in the United States, has just been published in New York. The sketch, submitted by Dr. H. Tait McKenzie, of Philadelphia, and approved by the National Memorial Commission, symbolizes the development of Canada.

Four figures occupy the immediate foreground. On the left is Canada enthroned, her right hand on a shield emblazoned with the arms of United Canada of today, her left outstretched to receive the offerings of her children. She wears a head dress with caribou antlers and the short tunic and sandals of Diana; a youthful girl-like figure, the youngest of the Nations.

The central figure is a small child, the Canadian of the future, staggering under the weight of the wheat she is bringing. Behind him and partly supporting him is a stalwart giant, the "Canadian" of the present, relinquishing his rifle and looking forward to Peace and Industry. Behind him a young woman kneels and recedes his with one hand and with the other pours out from a basket the fruits of the earth at Canada's feet.

The engineer is stepping down into the foreground with a theodolite on his shoulder. At his heels come, in procession, the lumberman, with his axe, and the fisherman with his nets, established on both coasts before the land was settled. Farther back at the side is seen a group; a man, with hunter's rifle, and a woman and child, standing among the trees in front of the settler's cabin. On the opposite side an Iroquois Indian lurks in the forest watching them.

The upright pine trunk forms a pedestal on which is seen the figure of the late Jacques Cartier on the deck of his ship, as he sails up the St. Lawrence. Kneeling behind him a Jesuit priest upholds the cross, a reference to the religious character of the first settlement of Canada.

The relief of the figures becomes lower as the history recedes into the figures on the foreground stand out boldly, almost in the round.

The panel is about 20 feet square and is supported on a pedestal about three feet high on which the inscription will be carved.

There are approximately a million and a quarter men and women of Canadian birth resident in the United States. It is expected that their sentiments of pride in and devotion to their native land this memorial at Ottawa was proposed. The sixtieth anniversary of the Confederation of 1867, provided a fitting opportunity to present it. It will be erected at a cost of \$50,000, the sum to be raised by voluntary subscription among Canadians residing in the United States.

The erection of the Canadian Government the most desirable site within its gift was made available to the Memorial Committee and accepted. This location is a large panel in the main corridor of the Parliament Buildings leading to the Hall of Fame and opposite to and balancing the Memorial group already erected there to the Nursing Sisters in the Great War.

Time was of course too short to consider the erection of the Memorial itself for unveiling at the Jubilee ceremonies in Ottawa on July 1, last. A temporary tablet was therefore made, placed within the panel the memorial will occupy and in the presence of His Excellency Viscount Willington, Governor-General of Canada, the Right Hon. W. L. Mackenzie King, Prime Minister, and a distinguished gathering, solemnly unveiled and formal presentation made by W. W. Colpitts as chairman of the National Committee. The gift was gratefully accepted on behalf of the Canadian people by the Governor-General and the Prime Minister.

The Tablet reads: "In the sixtieth year of the Confederation of Canada and in commemoration of this event Canadians who live in the United States will cause a memorial to be erected here in token of their devotion to the country of their birth and as a proud tribute to the achievement of its foundation."

Truth Essential To Success
I find great pleasure in a truthful man. One can depend on what he says, and learn from him. But no one pays any attention to a liar, or much respects him. I have never known a really successful man who was a liar. Men of that disposition soon learn if engaged in real affairs successfully, that untruthfulness is a drag, like a ball of clothes when in swimming.

Canada's Basic Industry Sound

Agriculture In Canada Prosperous According To Dominion Statistics

Agriculture is Canada's basic industry, and agriculture is prosperous. According to the Dominion Bureau of Statistics, the Dominion's gross agricultural revenue was \$1,385,301,000 in 1927 and \$1,758,429,000 in 1927.

This represents an increase of approximately 26 per cent. in five years, and the percentage increase in the gross agricultural wealth of the country for the same period is only slightly less. The figures are: \$4,745,185,000 for 1922, and \$7,903,460,000 for 1927.

For all Canada, occupied farm lands increased in value to the extent of \$1 an acre in 1927 as compared with 1926 and last year stood at \$38 according to the bureau.

For all Canada, occupied farm lands last year had an average value of \$89 an acre, an increase over 1926 of \$9 and a figure far beyond that of any other province. Much of British Columbia's arable land is found in fertile valleys where it is cultivated extensively for fruit growing or market gardening. Saskatchewan, the greatest grain province, had an average of \$26, with an increase in the year of \$1. Ontario increased its average from \$62 to \$65, and Quebec from \$50 to \$57.

The increased value and number of livestock is another evidence of prosperity. Canadian horses, cattle, sheep, swine and poultry in 1926 were valued at \$147,509,000, in 1927 the value had gone to \$202,097,000, most of the increase being in cattle.

There are no figures in existence to show the extent of farm indebtedness in the Dominion, but apparently in most cases mortgages are being carried without interruption. In the last few years there were sections in Western Canada where farms freely were being abandoned to the mortgage companies. Today, after a recession of profitable crops and in a healthier atmosphere of optimism, this condition no longer exists. It is interesting to note that according to the latest census 85.7 per cent. of all Canadian farms were occupied by their owners, showing the numerical insignificance of the tenant class.

Color Matter Of Preference

Brown Shelled Eggs Laid By Common Hens, White By Others

Color of the shells does not affect the food value of eggs. This statement from the poultry department of the University of Wisconsin College of Agriculture may be accepted with certain reservations by housewives who have always insisted on "white eggs" or "brown eggs." Color is entirely a matter of local preference, say the Indiana poultry specialists, and as a result eggs of the color most commonly requested on any market are considered by the buyers in that community to be of superior quality.

Brown-shelled eggs are laid by common breeds, such as Barred Rocks, White Island Reds and Wyandottes, while white-colored eggs are produced by Leghorns, Minorcas and other Mediterranean breeds.

A Good Insurance Risk

Although he carries a blanket policy liability insurance policy for \$100,000 on any air craft he may be flying, Col. Charles A. Lindbergh has not presented a single claim for damages in the thousands of miles he has flown since he piloted the Spirit of St. Louis from New York to Paris. This has been announced by the insurance company.

Babe Largest Potato Crop

Prisoners of Manitoba have made a record of 200 bushels of potatoes per acre, a record which is a third of the potato crop reported by penal institutions of the Dominion. Nearly a third of a million pounds of potatoes are dug up every year at Stony Mountain, and nearly as many figures in the yield at Prince Albert.

"I saw a dog with five legs the other day."

"Where was the fifth leg?"

"In its mouth—Vikings, Oslo."

W. N. E. 1734

KEEPING CREAM COOL

Putting Cream In Can and Placing In Iceed Water

With the arrival of warm weather cream producers who patronize a butter factory are faced with the problem of keeping the cream cool and clean in flavor until delivery is made. Authorities of the Dairy and Cold Storage Branch, Department of Agriculture, Ottawa, discuss the view in pamphlet No. 37, entitled "Care of Cream For Buttermaking," that the easiest and surest way to put cream in an ordinary shotgun can and place it in a tank of lead water immediately after skimming. This pamphlet shows an illustration of a suitable tank capable of holding four cans and sufficient ice and water to keep the cream at a low temperature. The tank is made with a space of four inches on all sides and on the bottom which is filled with plating-salt shavings. The cover is also insulated in a similar manner. The tank is lined with galvanized iron.

This tank, although regarded as a little expensive, is highly recommended on farms where the ice has to be conserved. An ordinary wooden tank with a layer of straw or sawdust on the inside of insulated water or plain wood covers are of great importance, as they help to keep down the temperature of the water and cream.

This pamphlet, which can be obtained from the Publications Branch, Department of Agriculture, Ottawa, gives the results of an experiment which shows the great advantage of keeping cream in a proper tank over the usual practice of holding it in the cellar. In the tank cream held for sixty hours at an average temperature of 55 degrees Fahrenheit, reduced an acidity of only 0.16 per cent. When kept in a cellar for the same period the average temperature of the cream was 65 degrees, and the acidity to reach 0.95 per cent. That is to say, cream held in the cellar had three times as much acid as that cooled in the lead water.

Western Alberta Minerals

American Interest To Develop Immense Lead and Zinc Deposits

Some initial work is to be done this summer on the development of an immense lead and zinc deposit in the north country just above the Alberta boundary. Mineral rights in this area are held by a syndicate controlled, it is understood, by American interests, and the work proposed for the coming season will consist of making experimental shafts with a view to determining the extent and character of the deposit.

A working crew will go north for this purpose soon after navigation opens.

The area to be thus developed is in the Great Slave Lake country about eight miles beyond the Alberta limit. It was prospected before the war and rights acquired from the original prospector by an English concern. Owing to wartime conditions, however, no development work was done, and the English holders dropped the claim.

It is said that competent geologists have declared the area to hold the richest body of lead and zinc ore on the continent. Merely as a proposition, there is believed to be millions of tons of ore in the deposit and if the tests now about to be made show the deposits to have the expected depth there will be an almost fabulous quantity of the two minerals found of which to make new Eldorado of the north.

Already there are visions of great transportation activity on the northern waterways if the development of the lead and zinc deposit of the top country is proceeded with. Freight will necessarily go in and come out by way of the Mackenzie route, connecting with McMurray and the waterway to the Arctic Ocean. Lead and zinc may prove an ultimate extension of the railway into the north, instead of oil.

Just a Report

A Negro preacher had petitioned his bishop to issue with appeals for help that the bishop finally told him with a tone of irony that he didn't want any more appeal from him.

"Dear Bishop—I assure you this is not an appeal. It is a report. I have no plans."

Important To Beekeepers

The artificial mating of queen bees by which the beekeeper in future can make sure that excellent strains of bees can be perpetuated throughout generations, with a resultant high grade of honey, was revealed by G. H. Hale, at the annual convention of the Manitoba Beekeepers' Association recently. The new discovery, he declared placed the industry on a controllable basis.

London Has Repair Shop For Lifeboats

Those Put Out Of Commission Around Coast Are Immediately Replaced

In an out-of-the-way corner of the River Thames in the port of London is a lifeboat hospital. The doctors are all hallors, most of whom have long been connected with the lifeboat service. The hospital is the repair and store depot of the Royal National Lifeboat Institution. One enters, from the street through a small door, just as though going into an ordinary house, but once inside the similarity ceases, writes W. J. Seymour, in Pearson's Weekly. There are busy yards, machine shops, and store rooms where they keep a stock of everything necessary, from spare lifeboats down to metal polish.

Eight or nine lifeboats fully equipped are always kept "standing by" ready to be replaced by one that may be put out of action during the coast. Day after day the boats are always on duty, prepared to summon all hands to dispatch a lifeboat immediately on receipt of an S.O.S. No station is ever left empty.

Meanwhile the damaged lifeboat is being returned to the yard, and on arrival she is immediately overhauled, put into a thorough state of repair, re-equipped, and then put on stock, ready to take her turn again.

Not a year ago ever kept in stock they go direct from the builders to the station for which they are intended.

Plant Has Peculiar Seed

Gout's Remedy Equipped With Parachute Which Expands and Contracts

Gout's Remedy, a European plant seed that could almost be said to walk, is equipped with a kind of downy, ribbed parashute, by which it drifts for a distance from the air, and by the action of which it is able to move along the ground after it lights. The effect of alternate sunrise and dew on the parashute is to make it expand and contract, so that unless the seed has landed on soil, where it can take hold, the ribs will drop it along day after day until a favorable spot is found.

Assist Agricultural Colleges

In England and Wales there are seventeen institutions receiving grants from the ministry of agriculture. Six of the leading universities are granted money, though in no case does it exceed \$25,000. There are five colleges classed as agricultural, one as horticultural, a dairy institute, and a veterinary college. Altogether, the grants amount to \$225,000.

How Growing In B.C.

The John I. Egan Hop Company, of San Francisco, that now has 100 acres of land in parts of Sardis, B.C., recently acquired additional 80 acres just south of its present holdings, which will be utilized during the coming season. There were approximately 700 tons of hops grown in British Columbia last year, principally all of which have been shipped.

Romance on C.P.R. Route

The Canadian bride had early influence upon Andrea Jansen, 21, and Neils Christensen, 23, handsome young Danish immigrants who are arriving at Winnipeg, destined to marry and, with the assistance of the Canadian Pacific Railway's colonization department officials, did so forthwith.

They had known each other in their homeland, Denmark, for several years, and had even been sweethearts, but on departing for Canada they had hitherto no romantic ideas of thoughts of marriage. Traveling as strangers in a strange land, they met and found happiness in each other's company during the journey, and furthermore discovered their destinations to be close together. On reaching Winnipeg on their wedding trip, they decided to remain in the C.P.R. Colonization department officials did the rest.

Rev. N. Danstov, immigration chaplain, aided the groom in securing a special marriage license. His son Victor, a member of the colonization staff, hurriedly procured a first bouquet from the florist as a gift to the bride from the company. An office adjacent to the Winnipeg immigration hall was cleared and prepared for the occasion. C. A. Van Scoy, head of the colonization department of the railway for Western Canada, volunteered to act as groomsmen, and it is O. McNeill, general passenger agent, to give the bride away; a group of twenty immigrants, who were traveling at the same time, and the stage was set for the ceremony, the first among newcomers in this season.

"Will you have Andrea for my daughter?" asked Rev. N. Danstov. "Yes," responded Neilsen.

The chaplain pronounced a special prayer for their guidance as strangers in the new land, charged them to continue faithful to one another, to keep the Lord's prayer, to give benediction, made the sign of the cross, and Andrea and Neils Christensen were declared man and wife. They continued their journey westward that afternoon, two out of four hundred settlers—Danish, Dutch, and English, who were traveling at that time with the Canadian Pacific.

NEW POPULAR BEVERAGE

Four Thousand Gallons Of Tomato Juice Consumed Annually At Health Resorts

Tomato juice is a popular beverage at French Lick Springs, a well-known health resort, says The Modern Hospital. According to the manager, R. J. Tompkins, the guests consume over four thousand gallons of specially prepared tomato juice each year, in commencing on this, Mr. Tompkins says:

"In late years physicians and dietitians have demonstrated that the juice of the tomato contains many beneficial elements, the chief of which are the three vitamins, A, B and C, and the recently discovered vitamin E, which assists the red blood cells in absorbing iron from the blood. These are necessary for nourishing and strengthening the entire human organism."

"Tomato juice may be served plain, or with a pungent seasoning," says The Modern Hospital. "The method of preparing it is to pour the juice of the can and press the pulp through a sieve. Chill and season with salt and pepper. Add lemon juice, tobacco, or Worcestershire sauce, if desired or any other seasoning."

"The use of canned tomato juice has been growing ever since the discovery of the canning process as a preservative of vitamin C, which not only prevents decay but is necessary for growth and good health. Much of this conservation is due to the acid content of the tomato itself. In addition to vitamin C, tomato juice contains vitamin A, B, and E."

"Increasing popularity of the tomato as a source of vitamins is due to the fact that it can be obtained all the year around at a comparatively low price, and because the labor of preparing it for use is smaller than for almost any other source of the vitamins, a matter of importance in the hospital or health resort."

Will Not Incur Large Debt

But Highway Building In Saskatchewan Will Be Speeded Up

"No one had ever criticized the highway map of the Province and the type of road used is as good as any built anywhere, and they are well designed," says Hon. Geo. Spence, the Saskatchewan Minister of Highways, Labor and Industry goes on to point out the economical aspect of highway building and travelling which is being commenced this summer. "The Province is in a splendid financial position today. We are going to speed up but will not go head over heels in debt. Colonization is needed, but colonization is a human problem. You can't dump people into the country and expect them to stay. Provincial highways have been built to serve points in the East, West, North and South, but no government can build more highways than the people can pay for. They must be built where they will give the greatest service."

"An survey will be proceeded with this summer; the Dominion government will do this," he said. "They will equip the equipment that the provincial government will be able to give the information to the people. Tourist traffic by lake and river will be made a study, but until the full information is obtained no charters can be made. It would not be safe. The work of constructing the road into the new park in the North is under way. It will be completed in time for the opening of the park in August and in July will begin the work of removing the loose boulders from the river and Montreal Lake. When this is done it will open up a fine waterway route in the tourist district."

No Arguments

A new 5 and 10-cent store had been opened by a man named Cohen. A woman came in one day and selected a toy for which she handed the proprietor a dime.

"Excuse, lady," said Cohen, "but these toys are 15 cents."

"But I thought this was a 5 and 10-cent store," protested the customer.

"Well, I leave it to you," said Cohen, "they mean it is. 5 and 10 cents."

Infatuated Youth! Thinking of me, darling!

Wear! Girl: Oh, was I laughing? I'm so sorry.

If a man is smart he can catch on and if he is wise he knows when to let go.

The youthful graduate is the only person who knows enough to run the nation successfully.

A sky flecked with small white clouds is sometimes called a multi-colored sky.

Crop Planning Of The Farm

Keeping a Record Of What Crops Are Grown In Rotation

In order to keep a record of what crops have been grown each year on all the fields of various parts of the farm, it is desirable to keep each year a small plan of the farm. On this plan may be written the crops to be planted, the results of the year, such additional information may be recorded as dates of ploughing, seeding and harvesting. When this plan is made every year, it facilitates the following which may be desired. It enables one to learn what fields produce the largest yields of certain crops, providing information to enable the improvement of the rotation along the line of ploughing certain crops to soils to which they are suited. Observations

may be recorded regarding the presence of weeds in various parts of the farm, which may be noted as they occur, where manure has been applied and any other points of interest. Such a plan provides a definite record of the results of each year's work on the land and over a period of years is very instructive. Farming is a long-time business and records are necessary if much improvement is likely to be made.

A sketch a plan may be drawn in a book, which may be kept in a place that will be kept easily available. It is possible to use a few pages in the book to make a record of all receipts and expenditures and to record once a year an inventory of the value of all the equipment, livestock, crops on the farm. These records, together with the cropping plan of the farm, give accurate information of each year's progress on the farm and are the best means of studying how to improve the farm business. No commercial enterprise would consider the conduct of its business without yearly records and neither should any farm enterprise. This means keeping farm records in the most simple, accurate, and systematic way it gives, undoubtedly, the most fundamental information, and it is the best way to keep a record of the farm's progress.

It is extremely simple and easy to do. If a more elaborate system of accounting is desired, it may be adopted later.

This article is offered in Bulletin No. 88, entitled "Crop Rotations and Farm Management For the Prairie Provinces," published by the Extension Branch, Department of Agriculture, Ottawa.

The planning of the farm might be made an enjoyable and instructive task for one of the boys or girls. They are given sufficient instruction in school in mapping to be able to apply this to their own farms.

To Preserve Wood

New Tool Invented For Injection Of Paste Treatment

The practice of giving logs a "paste treatment" to preserve them, invented in Germany not long ago, has spread to Britain, and a new tool has been invented to do the work. The new scientific method is being used to inject into telegraph poles a spreading paste that is said to keep logs for many years are said to be added to the pole's life.

This treatment of wood is a step that may lead eventually to complete eradication of decay. If that ideal is accomplished, buildings of wood can be erected that will be as imperishable as structures of stone, brick or steel, while the cost will be much less. The effect will be that of transmuting wood into rock.

Aviation In Western Canada

The developing "air mindness" in Western Canada is recently illustrated by the fact that three passengers arrived at Moose Jaw from Winnipeg by special Western Canada Airways plane for the transaction of business.

While being the first business trip made by air to Moose Jaw. The plane later flew to Regina and then back to Winnipeg.

A good many things he has done in his life so that he is no one to be taken for granted.

"Mr. Lamborn, I would like to marry one of your daughters."

Lamborn: "Light or dark?"

Light: "I don't know, I don't know."

Light: "I don't know, I don't know."

Light: "I don't know, I don't know."

Light: "I don't know, I don't know."

Light: "I don't know, I don't know."

"POKER HANDS"

PAINTED FIRES

BY NELLIE L. McCLUNG

COPYRIGHT, CANADA, 1925

CHAPTER XXIV—Continued.

Then he exalted war and military life. It developed the best in a man, and at this the Major bent his breast, directing his audience to that storehouse of accumulated virtues. Then he appealed to the young men to "get into the game." He painted the glory of it, the freedom of it; the army was the place where a man was a man. The nation's hero was the warrior-motivated soldier, who had no place in the world, especially with women. There was truth in the old song yet: "If a lad a lass would marry."

He must learn a gun to carry. Then in a lighter vein the gallant Major hinted at the charm of the French girls and how they pleased the Canadians. His manner indicated that but for the presence of the ladies he could tell more.

While he was speaking, Pte. Crowe's hands were never still, nor did his lips cease from trembling.

The Major then called for recruits.

HERCULES

PERMANENT BUILDING PAPER

MR. THINKER—

here's your health

Most of your clients are thinkers. A few facts regarding Hercules will impress Hercules—in three grades, A, B, C—tested and proven wind proof and damp proof. A little thought will show that this is all a building paper should be.

And above all, by these qualities, Hercules becomes the protection of the most precious treasure of the occupant of any home—his health.

A sample of Hercules is yours for the asking.

Major was a prince of story-tellers. "Say, boys, did you hear this one? One of the boys who had been on leave . . . "Hours of laughter followed, then more beer. "Too much hard liquor is bad," laughed the Major, "but too much beer is just right. No danger of being plucked for being noisy—we have both the proprietor and the policeman. Now, listen to this. There was a French girl . . ."

At one o'clock the party broke up. The Major had secured six names. He decided the next morning to let Pte. Crowe go back to the City. The kid was all right, but he lacked "pep." This was a job for a real hero, and after all, the best little recruiter apart from himself, if it ever could be considered from himself, was the amber-colored bottle. It gave just the proper warming glow.

Jack made his journey around by Edmonton to Eagle Mines, arriving there on the first day of February. There had been no reply to his note. He stepped off the train with a strangely beating heart. Helmi would be there, surely, but the platform was almost bare. Not a person whom he knew did he see as he hurried across the street and over to his own house. The door was not locked and he went in. A strange scene met his eyes—dirty dishes on the table, the remains of a shrimpy meal, absent from the plates; the floor, showing that it had been swept in the coffee pot was on the stove. The floor had been tramped by muddy feet and spilt upon by tobacco chewers, and a forgotten pipe was on the window-sill. The air was heavy with tobacco smoke and the stale fumes of beer.

Jack's heart was heavy with apprehension. He went up to the bed by the ladder on the wall. The bed there had been used too, and a man's coat was thrown across it. There it was—the house he had built, defaced, defiled. What did it mean? He would know what it meant, he would go over to the boarding-house.

Mrs. McManis, a few minutes later, related the interview to her friend Mrs. Turner. "He bounded in at me," she said, "just when I was putting the potatoes on to boil. 'Where's Helmi?' he almost shouted at me. 'The house he had built,'—defaced, defiled. What did it mean? He would know what it meant, he would go over to the boarding-house."

"Where's Helmi?" he almost shouted at me. "The house he had built,"—defaced, defiled. What did it mean? He would know what it meant, he would go over to the boarding-house."

"Where's Helmi?" he almost shouted at me. "The house he had built,"—defaced, defiled. What did it mean? He would know what it meant, he would go over to the boarding-house."

"Where's Helmi?" he almost shouted at me. "The house he had built,"—defaced, defiled. What did it mean? He would know what it meant, he would go over to the boarding-house."

Experience of more than thirty years proves that aluminum is the only completely satisfactory material in which to pack tea. Red Rose tea is put up only in aluminum, and a "money-back" guarantee goes with every package. L.W.

In his own house, Jack sat with the letters in his hand. Helmi had gone, she had not waited. He was a month late, but Helmi should have waited. Where had she gone?

The letter might tell him—it would be better to know. He opened the first one and found it contained a Government cheque for fifteen dollars payable to Helmi Doran, and it said it was on account of Pte. Arthur Warner. Jack stared at it without understanding.

Arthur Warner was from Montreal. "Dear Helmi," it said, "I have made over my separation allowance to you, and I hope you will accept it from me. You are the only person in Canada who has any claim on me. I have paid every other person in Canada for everything they have ever done for me. You, dear Helmi, I can never pay in money, for you gave me the most precious thing a man can have who goes out as I am going, memory of something tender and sweet. I have made my will, leaving everything I have to you. I will not forget your last words to me. Nobody ever spoke to me like that before. Will you write to me, Helmi?"

Ever Yours,
Arthur Warner.
(To Be Continued.)

MANY MOTHERS RECOMMEND THEM

Baby's Own Tablets Are Fine For Nervous, Sleepless

From Canada's the fame of Baby's Own Tablets is spreading over the world. Mothers recommend them to other mothers and wherever they are sold. Mothers who have used them for these pleasant tasting little tablets that promptly relieve the most distressing of all children's ailments. "Baby's Own Tablets are one of the first first-aid remedies I have ever used," says Mrs. Arthur T. Allen, of Auburn, Me. "My little boy was nervous and could not sleep. I tried the tablets and she was relieved. The tablets were sold by all druggists or will be mailed on receipt of five cents per box by Dr. Williams' Medicine Co., Brockville, Ont."

Not satisfied with his first record for curing Captain Tokio Kono of the Japan aviation school at Tokyo, immediately flew again and obtained a new record. He happened off 5:20 o'clock in the evening and broke his previous record of six hours in the night air. He immediately flew again and remained up until 6:25 o'clock in the morning, beating his previous record of the night by five hours. Most of his flying was in dense fog.

Could Hardly Fly For Asthma. writes one man who after years of suffering has found complete relief through Dr. J. D. Kellogg's Asthma Remedy. Now he knows how needless has been his suffering. This matchless remedy gives sure help to all afflicted with Asthma. Inhaled as smoke or vapor it brings the help so long needed. Every dealer has it or can get it for you from his wholesale dealer.

The time to take cure of the coming years is this year.

Love and potatoes must be akin— they both spring from the eyes.

CUTICURA HEALS LARGE PIMPLES

Caused Itching Burning, Also Disfigurement.

"My complexion was completely marred by pimples which were very sore. Some were very large and scaly, while others were just red and itched. They caused me itching, burning sensation, also disfigurement."

"After using scores of remedies for over two years, without any result, I sent for a free sample of Cuticura Soap and Cuticura Ointment. I was pleased with the results that I purchased more, and after using two boxes of Cuticura Soap and one box of Cuticura Ointment I am completely healed." (Signed) W. E. Blackman, 20 Bellevue Ave., Toronto, Ont.

Showing this week, "The Volga Boatman"

Mr. and Mrs. W. R. Brodie and Mrs. T. Wallace made a trip to Seattle during this week.

Regular monthly meeting of the W. A. S. will be held in the United Church on Tuesday, June 19th at 8:30 p.m.

Miss Kathleen Sexton, left on Tuesday for Calgary, having taken a position as nurse in the Kitchi-Sarnatman.

Mrs. Wm. Connell, of Connell's Groceries, was the guest of Mrs. A. York, over Monday night, leaving on a trip west, Tuesday morning.

Carman W. Dawdy and Miss R. McNeill, of Calgary, were guests of the former's grandparents, Mr. and Mrs. C. W. Dawdy, this week. Mr. Carman Dawdy is now a practicing optician.

The grading of the streets recently completed by Mr. W. Fulton, has added considerably to the appearance of the town.

Both the Red Deer and Saskatoon trains, rose very rapidly the first of the week—the former being almost to the top of its banks.

Word has come through that Frank Pearce, a former resident of this town, and now manager of the Calgary branch of the Royalstock Sawmills Co., is seriously ill with an ulcerated stomach.

R. C. Morrison, left for Manzanillo this week, to take a position on the government experimental ranch.

Miss Cockwell, who is on the nursing staff of the local hospital, returned from her holidays last week.

Miss Hazel Northcott, who has just completed a term at normal school, and is now qualified for teaching position, arrived home from Calgary, on Monday night.

Interest is reported to be again reviving in regard to possible oil in the Stevedale field.

Pensions Plea—cont. standard and their present salaries would not permit it.

As no pension was paid to their widows, insurance had to be kept up. They could not educate their children and keep up their living standards, purchase automobiles and live up to the dignity of their positions.

They pointed out that it was not the cost of living only but the change in the standard of living that caused their financial worry.

Judges in other countries received higher salaries than those in Canada. Now, after hearing all the evidence, seven of us out of a committee of fifteen were not convinced that good reasons had been given for the increase and every decision carried in Committee only on the chairman's casting vote.

I had been on the Committee dealing with pensions and retired soldier pension and could not help but notice how much more valid, convincing and just their plea for increased pensions was. Taking the index for the cost of living in 1913 as 100, we find that in 1928 it is down to 152. This includes such things as food, fuel, lighting, rent, clothing and sundries.

Two of us on the Committee were in favor of trying to even up the salaries of the County Court Judges so they could receive about the same amount in each province, but as this did not meet with favor, we were forced to vote against all increases.

We do not wish to have a class of people in Canada who live extravagantly and whose standards will be copied by the masses.

The salaries now are higher than those of College Professors, Ministers of the Gospel, High School, Model and Normal school teachers, and others of similar attainments.

The security of their positions must be considered in fixing salaries.

The report of the Committee was to give the County and Superior Judges of the Province an increase of \$500 per annum and to give the Judges of the Supreme Court of Canada \$500 of an increase. This would cost about 3 1/2 of a million per year.

Farm For Sale

The Rural Settlement Board of Canada offers for sale by public tender:

The South Half of Section (18), in Township Twenty-two (22), Range Two (22), West of the Fourth Meridian, containing 321 acres, more or less, reserving all mines and minerals.

Terms of sale are not less than one-third of the purchase price in cash on acceptance of the tender, and the balance in five equal annual installments with interest at 4 per cent per annum on the amortization plan.

Each tender must be accompanied by an accepted cheque for \$100. If tender accepted, this sum will be credited to the purchase price of the land. If tender is not accepted, the money will be returned to the tenderer.

Tenders will be opened at CALGARY, Alberta, on MONDAY, June 25th, 1928.

The highest or any tender not necessarily accepted. If the land is not sold on the date above-mentioned, the Board will be prepared to receive offers to purchase until such time as it is finally disposed of.

Tenders should be in plain envelopes marked, "Tender for the purchase of the S. 1/2, 1/2, 22-22-W. 4th Meridian."

Address tenders and enquiries to—THE RURAL SETTLEMENT BOARD OF CANADA, Southern Building, CALGARY, ALBERTA.

A Judgeship is attractive because it affords great opportunities for service to the people of the country. Canadian Judges have lived up to the great traditions of the bench and occupy a high place in the estimation of all. I cannot believe that they will be held in higher respect if their salaries are increased.

Having in mind the many real needs of Canada at the present time and in consequence the necessity for economy and careful trusteeship, and knowing the living conditions of many deserving and worthy people I believe that the increases should not be granted at the present time.

F. W. GEISHAW, M.P.

VILLAGE OF EMPRESS

Notice is hereby given that if all arrears of taxes imposed in 1927 in respect of any parcel of land situated within the municipality are not paid on or before the first day of July next, such land will be dealt with under the provisions of The Tax Recovery Act, 1927, with a view to obtaining certificate of title in the name of the municipality in respect of such parcel.

D. McFACHERN, Secretary-Treasurer, Village of Empress.

QUALITY, DURATION and SERVICE
EMPRESS, ALTA. ACADIA VALLEY, ALTA.

We have something to sell that does not deteriorate in value after you have signed on the dotted line.

A NEW HOUSE, Burn, Machine Shed, Chicken Coop, Fencing, and good useful buildings of all kinds, are permanent, and practically of the same value after years and years of service. They actually cost you nothing, as their cost is a permanent investment which is worth the money at any time.

Good buildings have the added advantage over other forms of investment in that they pay continuous dividends in increased earnings, comfort, convenience, prestige, beauty, good health, etc.

Your home town Lumber dealer is a good man to do business with.

Empress Theatre

Showing This Week
Cecille De Mille's
magnificent production

"The
VOLGA
Boatman"

The masterpiece of a master producer

An absorbing theme exquisitely developed against the super-dramatic background of the revolt of an oppressed nation—a tremendous photograph of storm-tossed Russia, which none can see and ever forget.

starring
Wm. Boyd and
Elinor Fair with a
powerful cast

Acknowledged one of the greatest of photoplays
